I am a Tech Talent Academy's Data program graduate. I learned Python fundamentals including key data science libraries such as NumPy, Pandas and Altair. In addition to this I achieved a solid grounding in relational database management (SQL), data visualisation/business intelligence packages such as PowerBI, Tableau and Solidatas seeking. I'm driven to achieve the best results and bring energy and an upbeat positive attitude in order to meet the challenges of my future role. I am a great team player, a hardworking dedicated and focused individual with a strong passion for Tech.

I am certain that my past experiences, has equipped me with the technical skills, problem-solving skills, behavioural skills, organizational skills, communication skills, soft skills and the mindset necessary to be a successful Data Scientist. I am a keen and adaptable worker looking for entry level Data Science positions that will utilise this skillset and join a company where I can continue to grow and apply everything I've learned in order to meet and exceed the needs of the company.

## TECH EXPERIENCE

### TechTalent Academy, Data Science

Oct '21 – Dec '21

- An intensive 14-week course, focused on the fundamentals of data science delivered through a combination of interactive group learning and home learning tasks.
- During the course I built strong skills in the manipulation of data using NumPy and Pandas whilst being able to visualize the data using Python libraries including matplotlib, Altair and other software packages such as Power BI, Tableau and Solidatas.

### Primed Talent

April '21 – June '21

- Learned IT areas for a Support / Operations such as Linux, Networking, Security, Python Programming and Database.
- Learned AWS core services such as Cloud Economics, Global Infrastructure, Elastic Load Balancing, Amazon Cloud Watch, Auto Scaling, Cloud Architecting & Security.
- Learned AWS services from an operational viewpoint such as Tooling-and-Automation, Computing-Servers, Scaling and Name-Resolution, Containers and Serverless, Networking, Monitoring and Security.
- Achieved soft skills learnings with professional environment - like tools, processes and best practice exposure. Unified and immersive experience created for learners through a blend of technical and behavioral skills that could leverage the interview process.

## EMPLOYMENT HISTORY

### Generation Alumni Programs

Nov '20 – Present

- An advocate of Generation Programs, Generation is a charity organization in United Kingdom.
- Generation deliver coaching and training programs to give young people the skills they need and connects them with employers to find a great job fast.
- As an advocate I help promotes Generation program by social media, group posting, doing reviews and creating contents online to inform young people of free training.
